Routine Notes.

[To be used only for notes, requisitions, etc., not intended for permanent record.]

Mr Visvesvaraya's note No. 1 of 5.7.11 re budget estimate of Industries Committee for 1911–12 was referred by the Dewan to Prof. Leer, but the papers were sent back from the Dewan's office to Mr Visvesvaraya (according to the usual practice) for needful action.

These have come back with Mr Visvesvaraya's further note No. 3 of 10.7.11, without being seen by the Prof. Leer.

They are therefore sent to the Prof Leer

MEMO.

Subh Shri Dewan - President

Budget Estimate of the Committee for Industries and Commerce, for the year 1911-12.

- - - - - -

The estimate sent by the Chairman of the Industries and Commerce Committee, will, if recast in the usual form, stand as follows:-

SALARIES.

I.	Salaries.	Rs.8,400/-
II.	Establishment ...	Rs.1,600/-
	Total Salaries.	10,000/-

III. TRAVELLING ALLOWANCES.

To Members ...	Rs.2,500/-
To Officers ...	" 1,200/-
To Establishment	" 800/-
Total Travelling Allowance.	4,500/-

IV. CONTINGENCIES.

1. Purchase of books and journals.	Rs.6,000/-
2. Purchase of Furniture	1,000/-
3. Charges for printing bulletins ...	1,000/-
4. Office Expenses,&c.,	500/-
Total Contingencies	8,500/-

The Dewan's order D 18-7-11 "Submit draft order through Financial Dept." Draft order submitted & handed over to the Financial Dept. Ksubbaa 19/7/11.

V. SUPPLIES & SERVICES.

Experiments in Industries ...	Rs.15,000/-
Payments to experts.	12,000/-
Total Supplies & Services.	27,000/-

ABSTRACT.

Establishment	10,000/-
Travelling Allowance ...	4,500/-
Contingencies ... ,,, ..	8,500/-
Supplies & Services	27,000/-
Total Industries. ..	50,000/-

2. No provision is made in the estimate of the Chairman for Stationery. As the value of the stationery supplied by the Government Stationery Depot will have to be adjusted by book transfer, a specific provision of about Rs.500/- seems necessary . There are also some items of expenditure, such as the travelling allowance of members not serving on any Committee, the expenses of holding the meeting of the Con-ference, as a whole, at Mysore &c., which will not strictly fall under

the

the expenditure of any one of the Committees. For such items, all ~~the~~ the three Committees may have to contribute as there is no separate allotment.

3. Tn the Chairman's estimate the full amount allotted to this Section viz.,Rs.50,000/- is proposed for expenditure during the current year. But the intention of the Dewan-President was that the allotment should cover the expenditure of the Industries and Commerce Section, as a whole, and not only that of the present ~~current~~ year. Therefore, I think that the provision suggested for the following items of expenditure may be revised by the Dewan-President as shown below:-

Item.	Amount proposed by the Chairman.	Modified allot-ment proposed
III. CONTINGENCIES.		
1. Purchase of Books &c. ...	6,000/-	3,000/-
2. Purchase of of Furniture...	1,000/-	700/-
3. Printing charges,&c., ...	1,000/-	500/-
4. Stationery ...	-	500
5. Typewriter ...	-	400
Total Contingencies	8,000/-	5,100/-

Item.	Amount proposed by the Chairman.	Modified allot-ment proposed.
Brought forward		
~~Total contingencies.~~	8,000/-	5,100/-

V. SUPPLIES & SERVICES.

1. Experiments in Industries.	15,000/-	8,000/-
2. Payments to Experts.	12,000/-	8,000/-
Total.	27,000/-	16,000/-

VI. Contribution for general expenses of the Conference. .... 300/-.

Grand Total 35,000 21,400/-

If the estimate be revised thus, a sum of Rs.13,600/- will be left for appropriation later on. If, in the course of the year, further grants should be required under these heads, the necessity therefor may be considered as occasion arises.

The Chairman solicits orders as to the limit up to which he can incur expenditure (other than Establishment charges and Travelling Allowances).

The Chairman may be given full discretion in the matter of purchasing books, furniture and subscribing for journals and incurring printing

charges , previous sanction of Govern-
-ment being dispensed with; and the
Chairman may be requested to furnish
Government at the beginning of each
month before the 10th, ~~the~~ a statement
showing the description of the Books
or other articles purchased during the
previous month, for the information of
Government.

(5) As regards experiments in Industries
the Chairman may be required to obtain
the previous sanction of Government for
each experiment proposed to be conduct-
-ed. After sanction is thus obtained, it
may be left open to the Chairman to
incur all charges involved in the pro-
-posal without any further sanction.

Previous sanction of Government may
also be obtained for the remuneration
proposed to be paid to experts, in each
case.

6. To award any fees or remuneration
to

to non-official members for attending the meeting in addition to travelling allowances, will lead to an inconvenient precedent, especially as non-official members of the Mysore Legislative Council, Municipalities of Bangalore and Mysore Cities, Industrial and Agricultural Exhibition, are not paid any fees. If the non-official Members of Industries and Commerce Section are remunerated , those of the other Committees may claim a similar remuneration. Therefore, the term "fees" ~~x~~ has been omitted in the estimate as revised above.

Serial No.	
15	From the Chairman of the Agricultural Committee The Mysore Economic Conference. No. 11/A.C. dt 20-7-11 Submits a copy of the Proceedings of the first meeting of the Agricultural Committee together with the Budget Estimate for 1911-12. Submitted with a draft order as personally directed. V.S. 41 22-7-11.

NOTE—Contn. sheet.

GPB—50,000—12-8-10

Serial No.

A draft order on the budgets of the Committees is put up for approval.

The Secretary B & R considers that the powers of sanction of the Chairmen in regard to items of publication services may be limited to 100 Rs instead of 500 Rs as in the draft. This is a matter for orders. Personally I am inclined to let the larger amount remain.

In regard to establishment - the Municipal Committee proposes to have one clerk + two typists, while the other two want only one clerk + one typist each. It is a matter for consideration whether the Municipal Committee may not have only 2 officials (one clerk + one typist) & get any heavy typing work done as piecework on payment. ^ Perhaps this may be a small matter in which it may not be expedient to interfere with the discretion of the Chairman.

NOTE—Contn. sheet.

5.32 pm

GPB—5,000—26-6-11

Serial No.

The aforesaid draft is modified and a redraft is put up for circulation to Councillors.

In this redraft the classification of expenditure is only a rough approximation of probabilities. Chairmen will be free hereafter to propose reappropriations for approval.

In regard to the expenditure of District Committees, it has been suggested to me that funds should be made available from District Board Funds or Local Funds General. On this subject I propose that Councillors and I should keep an open mind, for much will depend upon the progress which may be achieved in the course of the year. For the present, the idea is that the necessary provision should come out of the allotment of Provincial Funds already made.

Sub° to Crs.

[Dunn informed by telephone that the Dewan will be glad if the file is returned to him with Crs' remarks by 4 P.M. so that he may be able to submit

My dear Sir,

I am directed to return the Budget of the Economic Conference and to say that His Highness the Maharaja approves of the draft Govt. Order with the following modifications :-

He would prefer to retain the allotments of Rs. 6000, 1000 and 1000 asked for by the Chairman of the Committee of Industries and Commerce under the heads (1) Purchase of books and Journals (2) Purchase of Furniture and (3) Printing charges.

As

NOTE— Contn. sheet.

GPB—50,000—12-8-10

As regards the heads (1) Experiments in Industries and (2) Payments to Experts, His Highness accepts provisionally the reductions proposed by you on the understanding that should the Committee need more funds later in this year it should be open to them to apply to Government for a further allotment. It is difficult to foresee what is likely to be required in the first year and His Highness would prefer not to tie the hands of the Committee too tightly in regard to these two importment branches of expenditure.

Yours sincerely,

T.Ananda Rao,Esq.,C.I.E.,

K.P.Puttanna Chetty, Esquire,

Chairman of the Agricultural Committee

of the Mysore Economic Conference.

To,

T. Ananda Rao, Esquire, B.A., C.I.E.,

Dewan-President

Agricultural Committee.

Dated Bangalore, 20th July 1911.

Sir,

I have the honor to submit herewith for your information and the orders of Government the Proceedings of the 1st Meeting of the Agricultural Committee, held on the 19th July 1911, and also the Budget Estimates for the year 1911-12. with a spare copy of each.

2. All the 9 members were present and evinced the liveliest interest in the Proceedings. They contributed materially to the discussion of the several questions and the meeting lasted for over 4 hours. Some of the members came from long distances. Of the 9 members, 6 were non-officials and 3, officials.

I consider that on the whole the Committee has made a very fair beginning as the subject of Agricultural improvement is a vast one and as there is room for legitimate differences of opinion.

3. Of the ten subjects finally grouped for the Agricultural

Committee

Committee, noted in the margin, (Vide page 17 of the Proceedings of the Conference) in the meeting of the Committee under raport, items Nos. 3, 4, 5, and 6 have now been taken up for active attention, and also two fresh subjects which have a very important bearing on agri-cultural improvement,

1. The Co-ordination of the several Government Departments and officials connected with agriculture, fruit-culture and horticulture.
2. The indebtedness of the Mysore ryot and his general economic condition.
3. The encouragement of cotton and mulberry cultivation and of other industrial crops.
4. Extending the cultivation of Sugar-cane.
5. The supply of capital, labour, manure, fodder and fuel in different parts of the State and the means of improving the same.
6. Extension of the Co-Operative Societies.
7. Study of fresh sources of revenue to meet useful expenditure.
8. Maintenance of irrigation tanks and channels by the people.
9. Village and town sanitation, water-supply and drainage.
10. Constitution and working of Municipal and District Boards.

Viz, (1) Award of scholar-ships to intelligent sons of ryots for getting practical training and (2) the formation of Agricultural Associations.

I consider that it is essential to place on a stable basis the Agricultural Associations already existing in some Districts and to start new Associations in other Districts, so that each District may have permanently an Agricultural Association in good working order, as it is only through the active Co-operation of such Associations that the Agricultural Committee would be able to inaugurate systematically improved methods of Agricultura and to make useful information reach the ryots.

4. I think items 8, 9 and 10 will have to be postponed for

for consideration to next year, unless, of course, some of the members

(8) Maintenance of irrigation tanks and channels by the people.

(9) Village and town sanitation, water-supply and drainage.

(10) Constitution and working of Municipal and District Boards.

of the Committee or the District Committeesor the Agricultural Asso--ciations bring forward specific proposals under these heads, for consideration during the year.

5. I hope to be able to take up items Nos. 1 & 2 at a subsequent meeting of the Committee.

(1) The Co-ordination of the several Government Departments and officials connected with Agriculture, Fruit-Culture and horticulture.

(2) The indebtedness of the Mysore ryot and his general economic condition.

(7) Study of fresh sources of Revenue to meet useful expenditure.

6. In regard to the Budget, out of the grant of Rs 30,000, an estimate of expenditure for Rs 21,600 has been fixed; every item was considered and passed by the Committee unanimously. For the Secretary, a pay of Rs 300/- and an allowance of Rs 50/- as already decided upon by Government, has been provided and he has comparatively more work as he is not only fulltime Secretary to the Committee, but also Provisional Secretary to the Conference. He has not yet been relieved of the duties of the 1st Assitant to the Revenue Commissioner and I would request Government to pass orders for immediately relieving him of the work in the Revenue Commissioner's Office, as otherwise, the work of the Agricultural Committee may suffer, as especially, at the commencement, a great many preliminaries have to be carefully attended to.

At present, provision is made only for two clerks one

on

on Rs 50/- and one on Rs 25/- and these two will have to attend to the work of the Committee and of the Conference. So, it is the ~~[illegible]~~ minimum establishment now required. As regards Menial Establishment, only 4 peons, the number which the Secretary has now as Assistant to the Revenue Commissioner are provided in the Budget and for both Office and Camp work, one attender and one peon. I have no objection to five of the peons of the Revenue Commissioner's office being now transferred for work under the Secretary, instead of men being newly appointed, as the menial establishment there can to this extent be reduced without inconvenience to the Revenue Commissioner's office at present. Of course, if the Government finally resolve to retain a full-time Revenue Commissioner and two Assistants , then, these five peons may be sent back. The other items call for no remark and I beg to assure the Government that the amounts provided under " Supplies and Services" and under ~~[illegible]~~ scholarships and temporary establishment will not be spent unless there is absolute need and unless we are sure of showing some tangible or valuable results.

I therefore request that the Resolutions of the Committee may be approved and Budget sanctioned by Government as early as possible; and in regard to the expenditure of Funds, I may be given the same facilities which are accorded to the Chairmen of the other Committees.

I request Government would authorize me to publish in Part II of the Mysore Gazette both English and Kanarese, and in the Revenue and Agricultural Gazette such information as may be useful to the

(12)

the Public, I also solicit the sanction of Hovernment to publish in the Gazette only in English the resolutions carried out at the monthly meetings of the Committee. For unless at least the resolutions adopted by the Committee are published, there would be no effective means of bringing them to the notice of all the members of the Conference scattered over the State, the Deputy Commissioners of Districts, Agricultural Associations and District Committees It would involve a great deal of time, labour and material to be sending copies of the Proceedings of the Committee Meetings to all the above. And on the other hand, if they are not kept fully informed from time to time of the Committee's aims and method of working we cannot expect from them timely aid and willing cooperation.

I have the honor to be,

S i r,

Your most o bedient servant,

B B Cunningham

Chairman, Agricultural Committee.

60

PROCEEDINGS OF THE MEETING OF THE AGRICULTURAL COMMITTEE OF THE MYSORE ECONOMIC CONFERENCE HELD ON WEDNESDAY THE 19th JULY 1921, AT 1 P.M., AT THE FIRST COUNCILLOR'S CHAMBER IN THE PUBLIC OFFICES.

----oOo----

P R E S E N T.

CHAIRMAN.

K.P.Puttanna Chetty,Esquire.

MEMBERS.

1. Rajakaryapravina
   A.Rangaswami Iyengar,Esq.,B.A.,B.L, R.B.
2. G.H.Krumbiegel,Esq., F.R.H.S.
3. Dr.L.C.Coleman, M.A. Ph.D.
4. C.Srinivasa Rao,Esq.,
5. D.Venkatramayya, Esq., B.A,
6. N.Krishna Iyengar,Esq. B.A.
7. K.H.Ramayya,Esq., B.A.
8. Badami Krishna Rao,Esq.
9. The Registrar of Co-operative Societies.

SECRETARY.

K.Subba Rao,Esq.B.A.

1. The Chairman asked the

Secretary to read the several orders of Government. Accordingly, the Secre-
-tary read for the information of the Members the following orders of Govern-
-ment:-

(i) Letter from the General and Revenue Secretary, dated 29th June 1911, informing the Chairman that Messrs.K. Subba Rao, C.Krishna Rao and V.S.Samba-
-siva Iyer have been appointed ~~Secretaries~~ Secretaries of the Agricultural, Education and Industries and Commerce Committees, respectively.

(ii). Government Order, dated 14th July 1911, appointing Rajakaryapravina Mr.A.Rangaswami Iyengar, R.B.,as a Member of the Conference, as a selected retired Officer of Government.

(iii). Government Order, dated 10th July 1911, sanctioning the grant of one lakh of rupees for the Conference and apportioning the grant as noted in

Rs.20,000/- for Education Committee.

Rs.30,000/- for Agricultural Committee.

Rs.50,000/- for Industries and Commerce Committee.

in the margin and requesting the Committees to furnish an estimate of expenditure for the year 1911-12.

(iv) Government Order, dated 15/17th July 1911, directing that pending sanction to the Budget Estimates a sum of Rs.1,000/- be placed at the disposal of the Chairman of each of the three Committees for urgent expenditure.

2. The Chairman said that the Budget might be taken up later on and that the Members might discuss the subject mentioned in the Memo circulated (vide copy appended). The first subject taken up for discussion was "The placing on a stable basis the Agricultural Associations already in existence and starting new ones where necessary." This led to a rather warm debate as the following issues were brought up for discussion.

(i)

(i) Whether there is an Agricul-
-tural Department in the State, and,
if so, whether the Agricultural Com-
-mittee is not usurping ~~his~~ its
functions;

(ii) Whether the formation of
Agricultural Associations and aiding
them with advice and guidance should
not be left solely to experts of the
Agricultural Department;

(iii) Whether it will not be dupli-
-cating work by the Agricultural Depart
-ment and the Agricultural Committee
both having to deal with the Agricul-
-tural Associations in the District;
and

(iv) Whether any information on
Agriculture should be published or any
advice given or, assistance rendered
to the ryots or the Agricultural Asso-
-ciations by the Committee prior to
such publication, advice or assistance
being submitted to the scrutiny and
approval

approval of the experts of the Agricul-
-tural Department.

After a full and free dis-
-cussion of all aspects of the subject, it was the general sense of the majority of the Members of the Committee that there was considerable scope for work both for the existing expert officers of Government and also for the Agricul-
-tural Committee and that each may be a source of strength to the other. Then the following resolution was unanimously adopted:-

R E S O L U T I O N. 1. Resolved that in the opinion of this Committee, it is desirable that every District should have an Agricultural Association, that Deputy Commissioners of Districts in which there are no such Associations now, be requested to start an Agricultural Association, that a grant not exceeding Rs.250/-, per annum, equal to the amount collected by each District

Agricultural Association in the shape of subscriptions or donations from the Members of the Associations and others, be provided by the Committee to enable the Agricultural Associations to carry on their work, on condition of the Asso-ciations submitting annually a report of work done and also of giving the Committee a voice in the programme of work undertaken by the Association.

RESOLUTION 2. 3. Resolved that in regard to the encouragement of cotton and mulberry cultivation and other industrial crops, such as, coffee, cardamom, oil-seeds, ground-nuts, rubber, etc., the Committee think it desirable to collect full information regarding the present conditions in regard to those crops and the needs of the agriculturists engaged in their cultivation in all the Districts, through the Agricultural Associations and District Committees

and

and that the Department of Agriculture and the Government Botanist be also requested to favour the Committee with their advice in regard to the publication of the results of the experiments carried on in British India and also in the State.

RESOLUTION. 3.

4. Resolved that the Tata's Silk Farm be utilised by the Committee in consultation with the Agent of the Salvation Army in charge of the Farm, for training sons of ryots or pupils of Normal Schools in Sericulture with the aid of such scholarships as may be necessary for a period not exceeding a year.

RESOLUTION. 4.

5. Resolved that the Agricul-tural Associations, the District Com-mittees and large growers of sugar-cane be requested to state what the needs and possibilities are in regard to the improvement and extension of sugar-cane cultivation.

R E S O L U T I O N. 5.

6. Resolved that the leading ryots, the Agricultural Associations and the District Committees be request-ed to state for what crops they are willing to apply special fertilisers, if granted free of cost, on a small scale, for purposes of trial on condi-tion of their reporting the result thereof.

R E S O L U T I O N. 6.

7. Resolved that the Committee arranged to collect information and make a trial, if possible, of demon-strating the practicability of con-structing a 'Silo', for the preserva-tion of fodder according to the new methods.

R E S O L U T I O N. 7.

8. Resolved that the Registrar of Co-operative Societies be requested to advise the Committee as to the manner in which new Societies may be formed or the existing ones encouraged to help the ryots, and to help

Sericulture,

Sericulture, fruit cultivation and the establishment of dairy farms.

9. The next subject taken up for consideration was the appointment by the Committee of some men trained in Agriculture and Sericulture to be sent out to the Districts to co-operate with the District Committees and Agri--cultural Associations and also to work at Head Quarters in preparing bulletins and leaf-lets on agricultural matters in the vernacular, under propev supervision and control.

This evoked considerable discussion. Dr.Coleman thought that as he had already some Agricultural Inspectors under him and as he wanted many more of them, his hands would be weakened by the Committee going in for similar Inspectors, that the Agricul--tural Inspectors required to be regularly trained by him and should be

under

under his complete control and orders if their work is to be successfully supervised and scrutinised, and that there was a great danger of purely amateur methods being taught to the ryots under the direction of the Com-mittee, that the conditions of rain-fall, climate and soil varied so greatly in different parts of the State, that it would be exceedingly hazardous to say that a crop or a special variety of seed, that succeed-ed in one place, would succeed in another, that it was not safe to draw any conclusive inferences from the results obtained in Experimental or Demonstration Farms in British India unless similar experiments were locally tried in each District, that the ryots when once they were put on the wrong track or did not get the results which they expected to get, would become very much averse to all modern methods

He

He was afraid that the Committee in going in for Agricultural Inspectors were about to participate in the work already being done by him and that if ~~xxxhxxx~~ his hands were strengthened by the Government sanctioning a larger number of Inspectors, he would be able to do all that is necessary in the matter and that there was a con-flict in the function now undertaken by the Committee and those already being performed by himself. Some of the Members thought that the Agricultural Inspectors proposed to be appointed by the Committee might be made to receive a course of training under Dr.Coleman, if necessary. Other Members thought that the Agricul-tural Department was yet in a stage of infancy and not properly formed; that it was not possible to say what time it would take for the Department to fully develop; that the time taken for experiments to be conducted on

a

a scientific basis and for the results thereof being published, was necessarily very long; that the agricultural improvements could not wait indefinitely; now that the Government had appointed the Conference and formed the Agricultural Committee, it was the duty of the Committee to do some practical work; that there was ample scope for Dr.Coleman, Mr.Krumbiegel as well as the Agricultural Committee to work in a spirit of friendly co-operation; and that as both Dr.Coleman and Mr.Krumbiegel were members of the Committee, the Committee would be always glad to fully avail themselves of their assitance and advise.. Then the following resolution was put to the Meeting:-

That two men trained in agri-culture and one in sericulture be appointed under the Committee, just as may be needed for work in the

districts

Districts and Head Quarters and that a provision of not exceeding Rs.50/- per mensem, as pay, for each of the above men, be made temporarily for a year.

RESOLUTION. 8. The Resolution was carried by a majority of eight against one, Dr.Coleman dissenting, on the ground that the men should be placed entirely under the control of the Agricultural Department instead of the Committee.

10. The Chairman asked the other Members whether any of them concurred in the view of Dr.Coleman that the Agricultural and Sericultural Inspec--tors to be appointed by the Committee should be placed under him directly and completely. None of them was in favour of such a proposal.

RESOLUTION. 9. 11. Resolved that the Committee may arrange to send for training a dozen intelligent sons of ryots who have

have received some rudiments of education to Agricultural Stations or Horticultural Gardens in the State or outside on scholarships of Rs.10 to 15/- a month for a period not exceed-ing one year.

RESOLUTION. 10.

12. Resolved that the sanction of Government be requested for publish-ing in the Mysore Gazette the more important of the Committee's Notifica-tions or Memoranda for the information of the public in Part II, both in English and Canarese and also utilise the Revenue and Agricultural Gazette, when necessary, for publishing Agricultural literature.

The Budget.

13. The Budget was next taken up by the Committee, item by item, and passed unanimously.

14. Before the meeting dissolved some of the non-official Members wanted information about the scale of travel-

travelling allowance laid down for the non-official members of the Committees and requested the Chairman to request the Government to fix the scale at not less than 5 Rs a day and a single First class for one railway journey.

15. The meeting dissolved at 5.20 P.M. with the understanding that the Committee will again meet on Saturday the 19th August, 1911 at 1 P.M.

Bangalore
21st July 1911.

K.P. Puttanna Chetty
Chairman

Committee Meeting, 19th July 1911.

Memo of peints for consideration, drawn up by the Chairman.

1. Reading of the Government Proceedings, received.

2. Budget.

3. The following subjects may be selected for immediate attention. Under each subject are also indicated the measures to be adopted:-

(1) Placing on a stable basis the Agricultural Associa-tions already existing in the Districts of Mysore, Kolar, Kadur and Chitaldrug; and starting similar Associations in the Districts of Bangalore, Tumkur, Hassan and Shimoga. As the District Committees will have to take action on the suggestions of all the three Committees of the Conference, their formation is not likely to render the existence of Agricultural Asso-ciations superfluous.

In the Madras and Bombay Presidencies, some of the Agricultural Associations are reported to be doing good work, and it is only through the help of such Associations that the Agricultural Committee will be able to inaugurate system-atically improved methods of agriculture in all the Districts of the state and also to reach the ryots.

A grant not exceeding Rs 250/-, per annum, equal to the amount collected by each District Agricultural Association

in

in the shape of subscriptions or donations from the members of the Association, may be provided to enable the Agricultural Associations to carry on their work, on condition of the Asso-ciations submitting, annually, a report of work done and also of giving the Committee a voice in the programme of work under-taken by the Association. If this suggestion is adopted, the Agricultural Associations of the four Districts may now be requested to immediately send their applications; and the Deputy Commissioners of Districts in which such Associations do not at present exist may be requested to forthwith form such Associations and to apply for the grant.

(ii) Encouragement of cotton and mulberry cultivation and other industrial crops, such as, coffee, cardamom, oil-seeds, groundnuts, rubber, &c.

The Committee will take steps to ascertain the needs of the leading agriculturists engaged in the cultivation of the above crops and to publish for their benefit the results of experiments carried on in British India.

The Salvation Army Agent in charge of the Bangalore Silk Farm may be requested to state how many ryots are now being trained in Sericulture, and how many more he could take. We may also offer scholarships to sons of Sericulturists and make the selections on the recommendations of the Deputy Commissioners.

Commissioners. The scholarship may, for the present, be fixed at 7 Rs, per mensem , with third class railway fare to and fro. The number of scholarships may, at present, be fixed at a maximum of five and the period may range from three months up to a year, according to the aptitude and requirements of the students.

(iii) Extending the cultivation of Sugar-cane.

The Deputy Commissioners of the Kolar, Tumkur, Bangalore and Mysore Districts and also the large growers of sugarcane may be requested to state what their needs are.

(iv) Supply of manure and fodder in different parts of the State.

The Committee may request leading ryots as well as Agricultural Associations to state for what crops they are willing to apply artificial manure, if granted free of cost, on a small scale, for purposes of experiment, on condition of their reporting the result thereof.

We may enquire whether any ryot owning large No. of cattle is willing, under the advice of the Committee, to try the experiment of the preservation of fodder according to the " Silo" system which is reported to have been tried with success in Northern India- or the Committee may, of its own sake, try to demonstrate the usefulness of Silo.

33

made suitable, for the information of capitalists and ryots who may desire to cultivate them.

As soon as the District Committees are formed, their suggestions and reports will have to be considered. Therefore, if we begin with the work indicated above, our hands will be full and more work will be coming on in connection with every one of the items. We have to take care that we do not trespass on the work already done by other Departments of the State and that we select only such portions of the work as are not now done by any other State Agency, or in areas in which such agencies do not at present exist.

We may get the sanction of Government for publishing in the Mysore Gazette the more important of the Committees' Notifications and memoranda for the information of the public, in Part II, both in English and Kanarese, and also utilize the Revenue and Agricultural Gazette, when necessary, along with the publication and distribution of leaflets in large numbers, as occasion arises.

2. Should the Committee need more funds later in this year for the items noted in the margin, it would be open to them to apply to Govt. for a further allotment

23. Out of the amount available for the general expenditure of the Conference, an allowance of Rs 50/- per mensem is sanctioned to the Provisional Secretary to the Conference who is also Secretary to the Committee for Agriculture. Any other necessary items of expenditure will be incurred under the orders of the President

24 Government trust that the Sums placed at the disposal of the three Committees will be expended with a due regard to economy. It is observed

GPB—10,000—22-2-11

that the budgets now submitted do not make any provision for expenditure that may be necessary in connection with the District Committees.

The sums placed at the disposal of the Committees are intended to meet all expenditure in connection with the Conference including that referred to above.

5 With reference to para 3 of the Govt Order no. G. 221-4-G.M. 278-10-6 of 10th July 1911 read above Government are pleased to issue the following directions ~~direct as follows~~:

The expenditure

on account of Salaries of officers and Establishment should be drawn on the usual paybill forms and preaudited by the Comptroller. The Travelling Allowances of the Members and of the Secretaries of the various Committees will be drawn on the usual T. A. Bill forms, countersigned by the respective Chairmen. In regard to any allowances or honoraria which may be proposed to be paid to Salaried Government Servants in connection with the work of the Conference, the Sanction

GPB—10,000—22-2-11

of Government should be obtained in accordance with Art. 52 of the Mysore Service Regulations. Money for contingent expenditure will be drawn on Abstract Contingent Bills and accounted for by Detailed Contingent ~~ones~~ Bills in the usual way. Other expenditure incurred will be accounted for to the Comptroller either as contingent expenditure or by the submission of work bills, etc. as the case may be. In regard to all other ~~charges~~ Charges, the Chairmen will have full discretion to

incur expenditure up to the limit of the grant provided in their respective budgets. To meet emergent expenditure for which prepayment may be necessary a permanent advance of Rs 300/- to each of the three Secretaries is hereby sanctioned.

6. The Chairmen will be good enough to ~~furnish to Govern-~~ forward ~~ment~~ at the beginning of each month before the 10th, an abstract Statement of expenditure under all items incurred during the previous

GPB—10,000—22-2-11

month for the information of Government.
